

# Building a Better Halton

July 26, 2021

## Trafalgar Road (Reg. Rd. 3) Widening

## Steeles Avenue (Reg. Rd. 8) to 10 Side Road

Widening to 4 lanes

Maintaining clean drinking water

Multi-use pathways

### Notice for Pre-Condition Survey – PR-2961B

August 2021

#### About This Project

#### IMPROVEMENTS

Beginning in **August 2021**, Halton Region will begin widening Trafalgar Road (Reg. Rd. 3) to four lanes between Steeles Avenue and 10 Side Road, Ward 2, in the Town of Halton Hills (see attached map). The work also includes installation of a watermain on Trafalgar Road, from the Ashgrove Pumping Station and Reservoir to 10 Side Road, and on 10 Side Road from Trafalgar Road to Eighth Line. This project is to improve the conveyance of traffic through the Trafalgar Road corridor and support south Georgetown's future growth.

As part of construction commencing, **dba Services** will be surveying buildings/homes near the construction area in order to verify and document existing conditions. The survey will protect property owners in the unlikely event that damage should occur during construction.

**Your property is located within the limits of the project that are being recommended to be surveyed.** There is no cost to residents or property owners for this service. The survey may include an interior and/or exterior inspection, photographs of buildings and structures (or portions thereof). The inspection typically takes about an hour to complete and will require someone to be at your home to let the inspector inside. All **dba Services** inspectors carry photo identification.

Your cooperation in helping us complete the survey work as soon as possible is greatly appreciated. As noted in the enclosed letter, to arrange an appointment, please call **dba Services** toll free at **1-833-212-4858** or email them at [pcs@dbaservices.ca](mailto:pcs@dbaservices.ca). Please make sure to reference **file No. 21-164**.

July 26, 2021

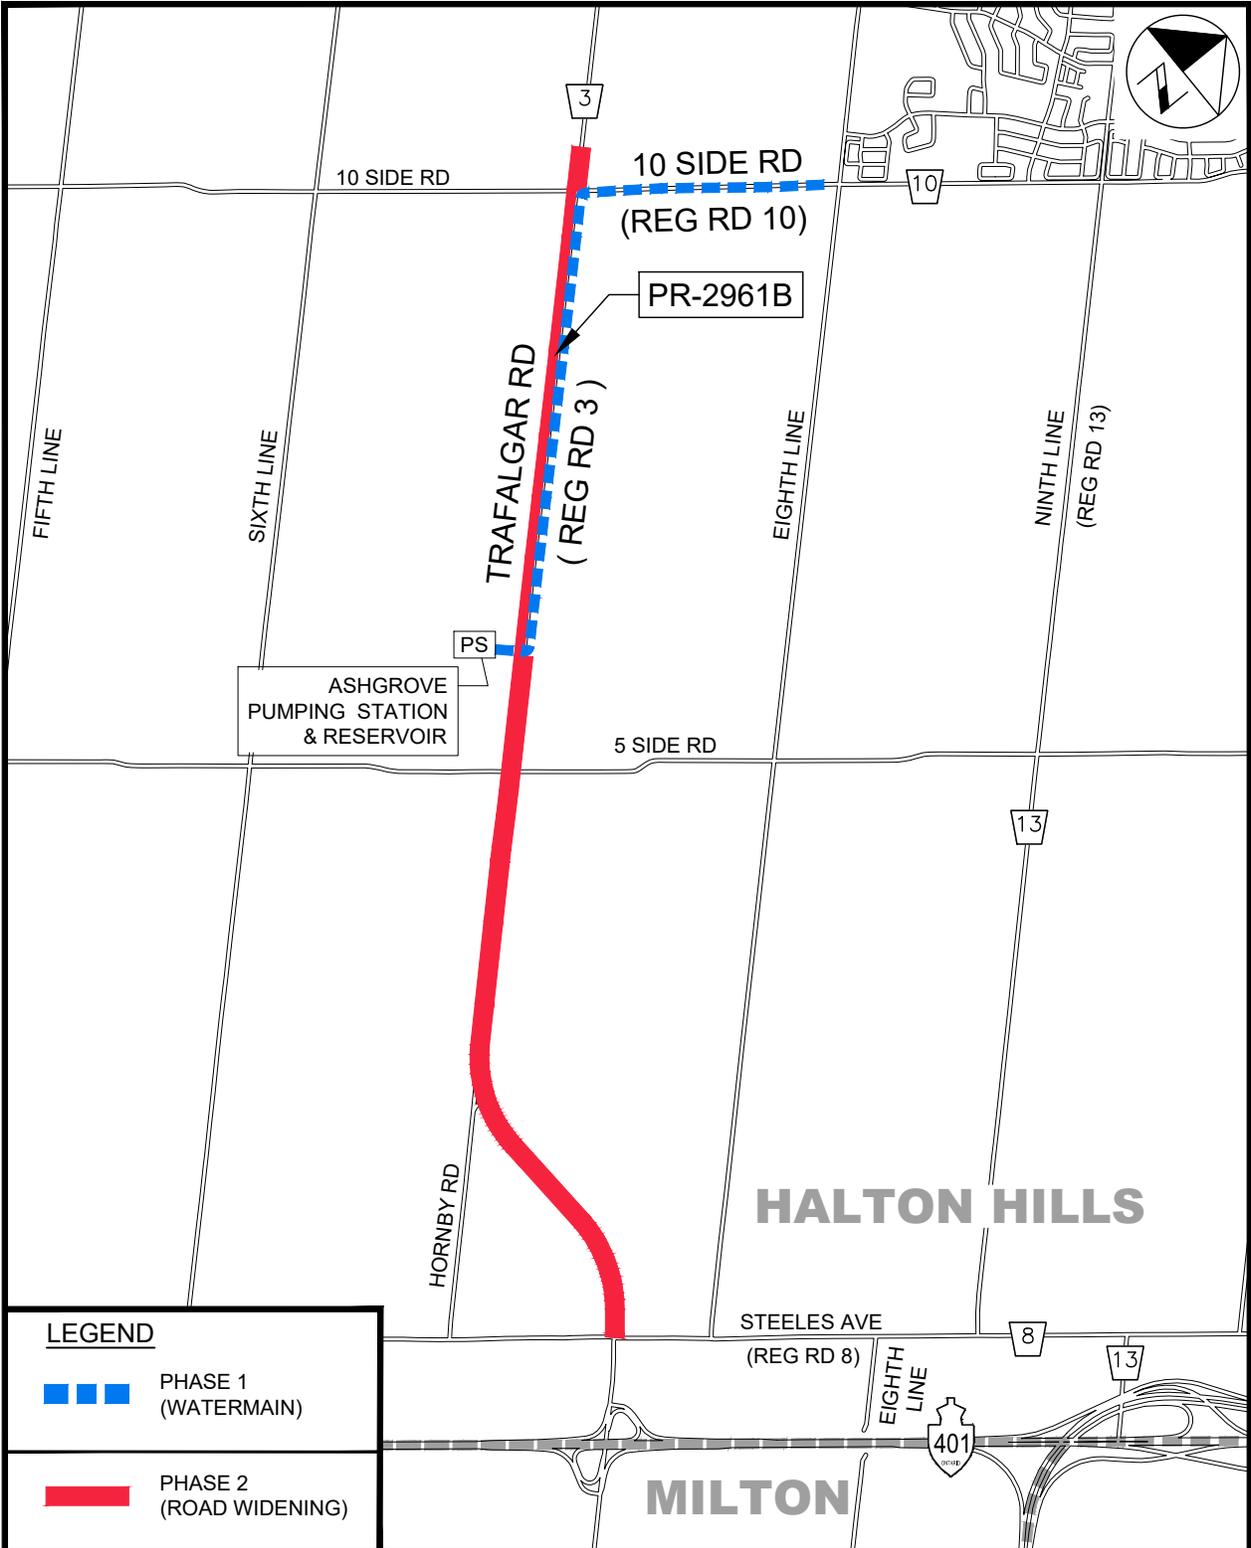

**COVID-19 Update:** Regional staff and contractors will be following health and safety guidelines set out by the Province and Public Health to help stop the spread of COVID-19. For more information, please visit [halton.ca](https://www.halton.ca).

## MORE INFORMATION

Building a Better Halton is about more than construction. It is about investments in infrastructure, service delivery improvements and building complete communities that maintain the high quality of life that residents expect and enjoy.
