- c. The Halton PHU will provide the Participant with reasonable updates on the Halton PHU's expected COVID-19 vaccine supply and allot quantities to the Participant as far in advance as the Halton PHU is reasonably able. In addition, the Halton PHU may periodically complete audits of clinical records including data within COVAX. The Participant also acknowledges that the Ministry keeps and makes available an electronic record of all accesses and transfers of personal health information through COVAX and that the Participant's access to COVAX is subject to audit by the Ministry and by the Halton PHU and that unauthorized use is subject to reporting to the Ministry and as required by applicable law.

- e. For the purposes of this Agreement: (i) "**Claims**" mean all past, present and future claims, suits, proceedings, liabilities, obligations, losses, damages, penalties, judgments, costs, expenses, fines, disbursements, legal fees on a full indemnity basis and other professional fees and disbursements, interest, demands, controversies, actions and/or causes of action of any nature or any kind whatsoever from time to time; and (ii) "**Halton Indemnified Parties**" means individually and collectively The Regional Municipality of Halton and its officers, directors, shareholders, Councillors, employees, subcontractors and agents from time to time.
- f. The provisions of Section 10(d) will survive the termination of this Agreement.

11. Term and Termination.

- a. The term of this Agreement commences on the Commencement Date and, unless otherwise terminated in accordance with the terms herein, continues for a period of 1 year and shall automatically renew for subsequent yearly terms unless either party opts to terminate as per s. 11.b. below (such 1 year period, along with any extension, the "**Term**").

Title: Associate Medical Officer of Health and
Acting Commissioner of Health

I have the authority to bind the corporation.

SIGNING INSTRUCTIONS

The signing pages on pages 11-14 may require more than one signature by more than one entity.

Here is what a fully signed agreement would look like:

1. If you operate as a **corporation**, the **full** corporation name must be on **Page 13**. (To figure this out, we do a free corporate business name search of the Ontario Business Registry at <https://www.appmybizaccount.gov.on.ca/onbis/master/viewInstance/view.pub?id=3abd3bce3cc0ad2a8e7b0a396af4847c1aa82ea96e45a924×tamp=6736896198146492>)

A person who has authority to bind the corporation must sign.

AND ALSO, at least one physician must sign, as in #3 below. This would apply to most long-term care homes, retirement homes and other businesses who might be doing in-house vaccinations. It also applies to many physicians' practices, which have a corporation which holds the premises ownership or lease and employs the staff, including nurses etc. who might be doing the vaccinating or recording in CovaxON. Examples of full corporation names include:

- a. X Y Inc. – a for-profit corporation name usually ends with “Incorporated” or “Inc.” or “Limited” or “Ltd.”
- b. X Y Z – a not-for-profit corporation does not have to have Inc. or Ltd. in its name

OR

2. If you operate as a **partnership**, the full partnership name must be on **Page 14** and a person or partner or corporation, whichever is appropriate to legally bind the partnership, must sign, **AND ALSO** at least one physician, as in #3 below. In the case of a Limited Partnership or LP, a General Partner must sign to bind the Limited Partnership. We have noted that many long-term care homes and retirement homes, and a few physicians' practices, operate as partnerships or limited partnerships. Please ensure that the person who signs for a partnership has authority to do so. We encourage you to check with your usual lawyer for quick advice on what is correct.

AND

3. *All **physicians** who are participating in the COVID-19 Vaccine Program need to sign the Vaccine Agreement on **Page 11**.*

Some examples:

- a. A private practice with one or more physicians – **each** physician must sign on **Page 11**, either as Dr. X Y or as X Y Medicine Professional Corporation. Please check the physician's name on the CPSO doctor search webpage (<https://www.cpso.on.ca/>) and insert the full name as registered with the CPSO (e.g. Dr. John George Smith, not just Dr. J. Smith). Also, check that webpage to know whether the doctor operates as a Medicine Professional Corporation (“MPC”); if so, insert the doctor's full name on the first line and the MPC name on the line that says “If practicing through a corporation, print corporation's name here”.
- b. A Family Health Team or Family Health Organization or other similar entity – likely a corporation or partnership, so note #1 or #2 **AND all physicians** involved in vaccinating must sign on Page 11.
- c. A long-term care home or retirement home – as either corporation or partnership as in #1 or #2, and **the physician who is ordering or writing the medical directive for vaccination must sign on Page 11**.

The rationale for requiring these signatories:

The Region of Halton signed the vaccine supply/CovaxON solution agreement with the Ministry of Health and that agreement requires that anyone who is using the CovaxON solution or vaccinating must be in DIRECT CONTRACT with the Region.

Corporations or partnerships employ nurses or others involved in vaccinating and using the CovaxON solution for recording purposes. The corporation or partnership is responsible for those employees and must sign an agreement with the Region of Halton. Consult your legal counsel if you are unclear what the right name is or who has authority to sign for your entity.

*Additionally, all vaccinating personnel require a medical directive or orders to operate under and these come from physicians, who are usually not employees of the corporations or partnerships. They operate as sole practitioners or under their Medicine Professional Corporation, so they need to sign, themselves, on **Page 11**.*

Add extra pages or sign in counterparts (each on a separate page and put them all together) if that is easier or needed due to numbers or locations.

Participation by a physician may include any or all of the following acts:

- i. Writing orders to administer the COVID-19 vaccine
- ii. Writing medical directives pertaining to COVID-19 vaccine administration
- iii. Administering the COVID-19 vaccine
- iv. Requiring access to the CovaxON solution in any capacity
