Attention: Mr. Joe Nethery, Manager of Community Planning

Further to our letter of December 11, 2018 that was in response to your letter of objection dated September 17, 2018, we are anxious to hear back from Halton Region regarding any outstanding concerns that may remain with our license application. We appreciate you acknowledgement of receipt of our letter received on December 21, 2018.

A meeting was held with our planner Mr. James Parkin of MHBC, along with representation from Conservation Halton and the Town of Milton on January 8, 2019. He advised that we were working to complete our ARA consultation and, given the number of objections that have been received, we intended to complete our reporting for the MNRF so that they could consider a referral of the application to the LPAT. We have also provided you with copies of our correspondence with the Provincial Ministries that addresses many of the matters you had raised. We have continued to be available to discuss any additional comments that you may have regarding our proposal. We understand from the Halton Region March Report that you are continuing your review. We continue to be open to discussion of any unresolved concerns.

Mr. Nethery, I hope the responses of December 11, 2018 satisfy all of Halton Region's concerns. I have enclosed an Objector Response Form with this letter that directs you to respond to us and the MNRF within 20 days by registered mail or personal delivery if you still wish to object to the application. Your response should include any recommendations you have that would finally resolve any outstanding concerns.

Sincerely,
JAMES DICK CONSTRUCTION LIMITED

Greg Sweetnam, Exec. V.P.
